

Mohammad Amin Abolghasemi

Graphic Designer & Developer

25 years across graphic design, industrial photography and management — and for the last few years, building products and tools with AI as my main line of work.

Based in Karaj, Alborz, Iran

PROFILE

Born in Tehran in 1980. I studied civil engineering, but my work went towards design and photography early on. I have run Jazireh Advertising Agency since 2001, and in 2011 I built one of the best-equipped industrial photography studios in Iran. Since then I have worked with more than 300 Iranian industrial brands. For the past few years my focus has shifted to AI-assisted development — automating studio operations, building websites and internal tools. Design and code together are what I do today.

EXPERIENCE

2001 — Present

Jazireh Advertising Agency

CEO & Head of Design

Founded under official licence no. 1827. I have run the agency and led the design team from the start, and drove most of its growth and graphic output.

2013 — Present

Studio Nine

Founder & Chairman of the Board

After eleven years in advertising, and seeing how little good industrial photography existed here, I founded Studio Nine with my brother Nima Abolghasemi. It is now among the most professional and best-equipped industrial photography studios in the country.

2013 — Present

Megat Group — Melal Gostar Aria Tamaddon

Founder & Chairman of the Board

Established to form an international holding. Its work spans photography, modelling, advertising, print, education, design, interior design and construction projects.

2013 — Present

Pro Nine

Founder & Chairman of the Board

A separate division focused on modelling photography, built on the experience gathered at Studio Nine.

2016 — Present

Nine Plus

Founder & Senior Instructor

The group's training arm, answering growing demand for industrial and modelling photography education. I teach in it myself.

CORE SKILLS

Vibe Coding with AI	95%	Claude Code	90%
Adobe Photoshop	90%	Adobe Illustrator	85%
WordPress & Elementor	85%	Python & Bash	75%

MANAGEMENT

Management	95%	Working with AI	95%
Entrepreneurship	92%	Communication	90%
